

How to enable cookies?

Some Web sites store information in a small text file on your computer. This file is called a **cookie**.

There are several types of cookies, and you can choose whether to allow some, none, or all of them to be saved on your computer. If you do not allow cookies at all, you may not be able to view some Websites or take advantage of their customizations.

Can not login to SportingPulse ?

You may find that once you enter your login details on a *Sportzware* website that you are immediately returned to the login screen and presented with, "You must have cookies enabled in your browser to use this facility".

If you encounter this problem then the first step is to ensure that your login details are correct. If they are correct then the most likely cause will be that your browser is not accepting cookies.

If you are accessing SportingPulse through an external website using IFrames or the website has cloaked domain to provide easy access to this site then you will need to have third party cookies enabled in your browser.

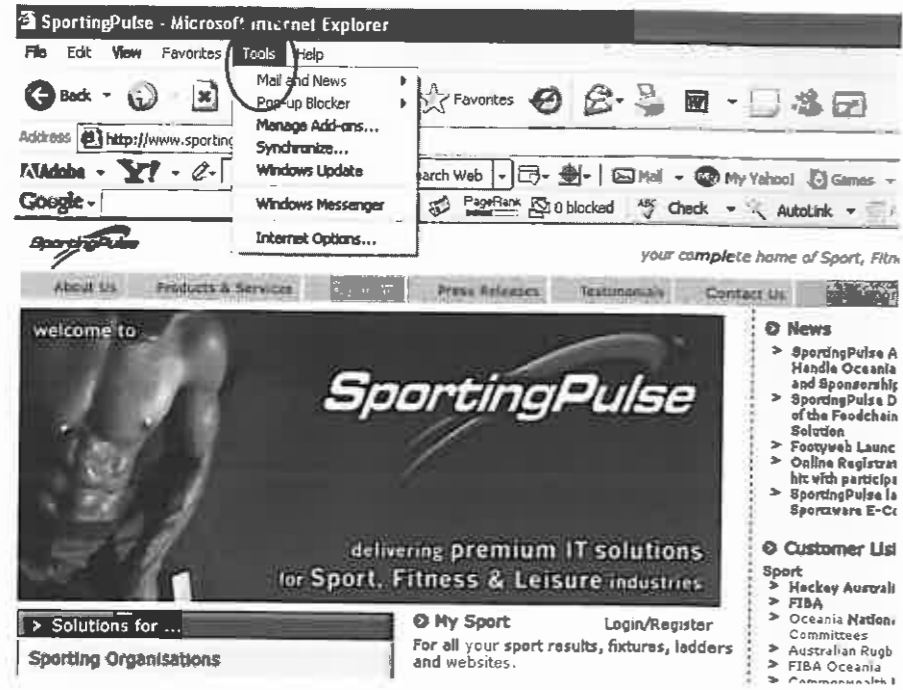

Solution

To fix this you will need to enable cookies!

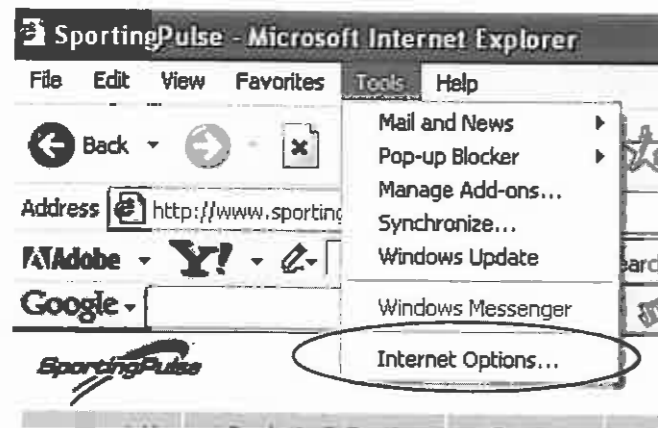

1. Open your Internet Browser

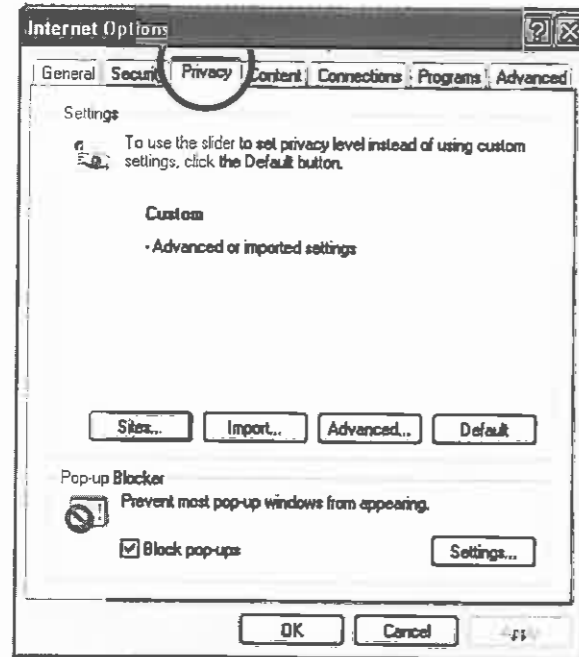

2. Click Tools

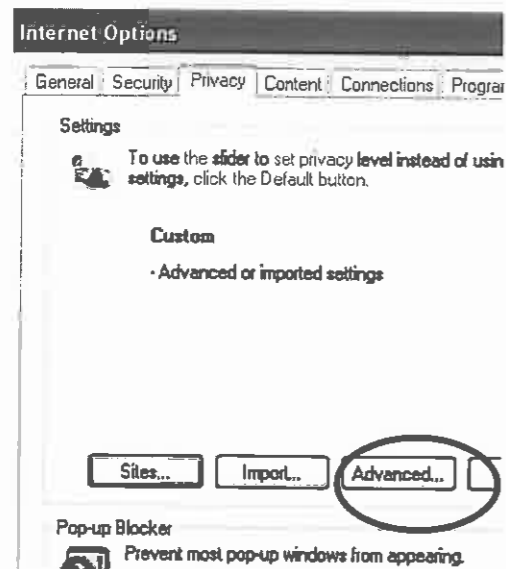

3. From the drop down list select Internet Options...

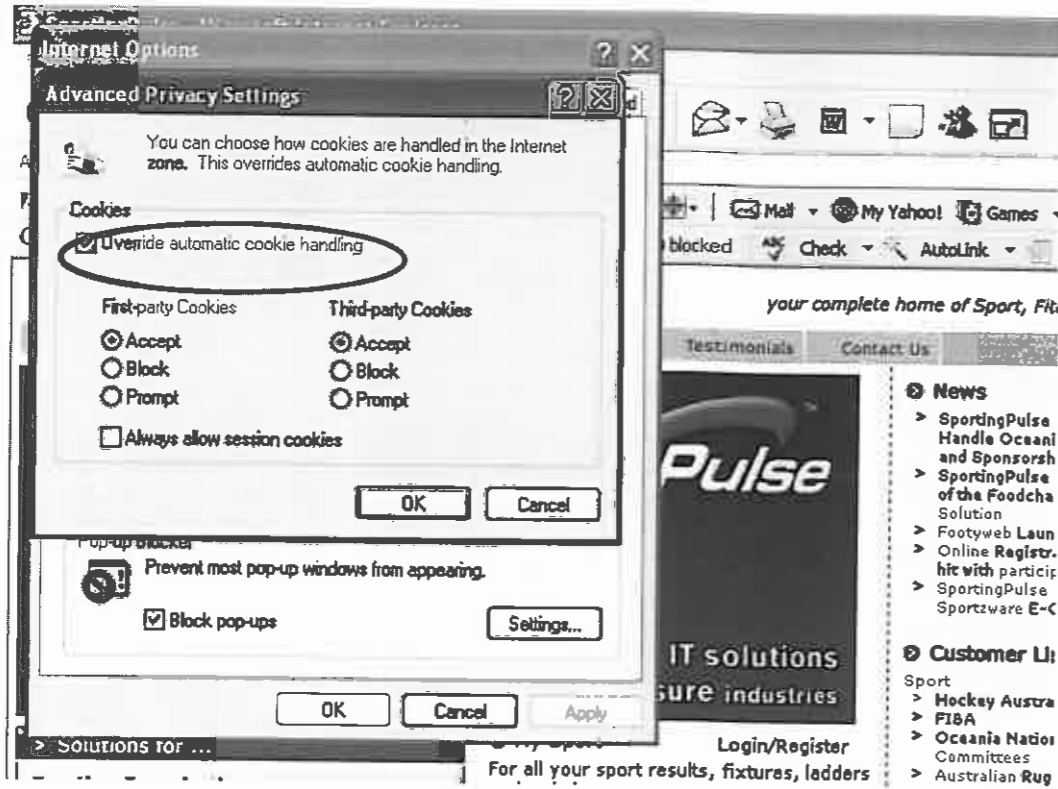

4. Click the Privacy tab

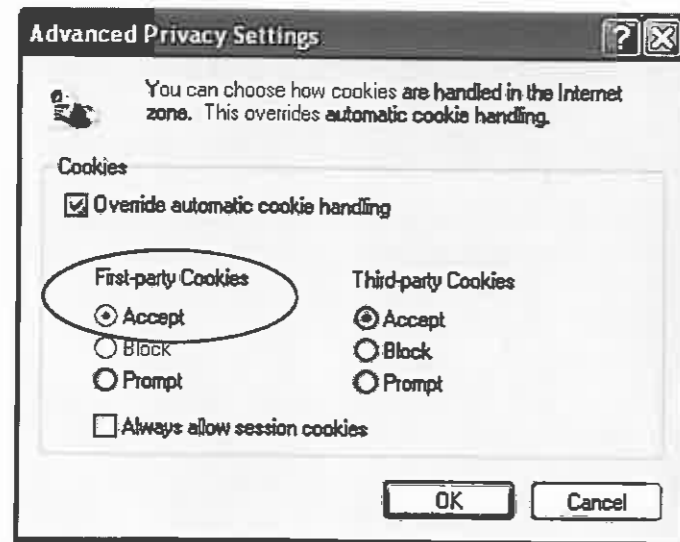

5. Click Advanced...

6. Place a tick in the **Override automatic cookie handling** box

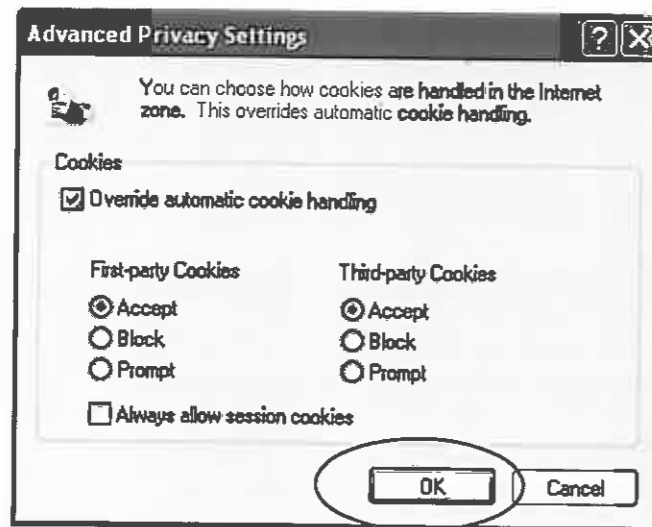

7. From the **First-party Cookie** list - select **Accept**

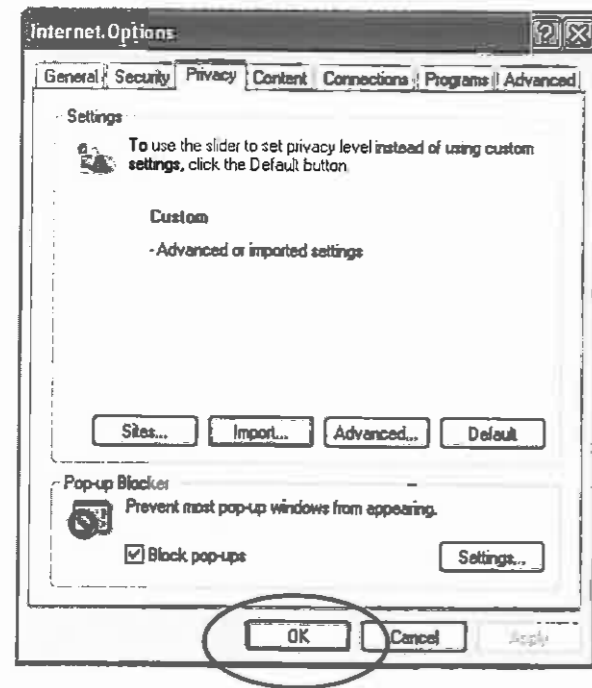

8. From the Third-party Cookie list - select Accept

9. Click OK

10. Click OK

Time Settings

If you are still experiencing problems with cookies, then check your time and date settings on your computer. If they are not set to the current date and time then you may not be able to login to your Sportzware Website.

If you are still unable to login to SportingPulse the please email support@sportingpulse.com for further assistance.
